## To the Voters of Ogden City

Many voters have made inquiries of my office as to whether or not a voter can cast his ballot on the machine for Wilson Electors and the balance of the Republican Ticket by pulling the Republican lever and, vice versa, I, therefore, make this statement to the voters:

Any voter can, by pulling the Republican lever, lifting up the pointer over the Hughes electors and pulling down the pointers over the Wilson electors, vote for the Wilson electors and the balance of the Republican ticket. Likewise any voter can, by pulling the Democratic lever, lifting up the pointers over the Wilson electors and pulling down the pointers over the Hughes electors, vote for the Hughes electors and the balance of the Democratic ticket.

The statement that there is anything wrong with the voting machines is false. An expert has examined them and found that they work as accurately as an adding machine. The same rule applies to all other candidates on any ticket.

Voters, you can vote as you please on the machine.

Insist on your right to do so. The judges, under the law, are required to assist you, should you so desire. Take your time and vote as your conscience dictates. Don't be misled by instructions given by a worker for any political party contrary to what is contained herein or in the regular instructions published in the newspapers.
